REMARKS.

In sending forth this Directory again upon its mission, the Publisher would accompany it with some remarks explanatory of its scope, and the labor and pains taking care necessarily exercised in the production of a work of such multiform and varied features as a complete and accurate Directory of Washington Alexandria and Georgetown. These qualities the publisher claims for this edition, and he confidently believes they will be found existing in a larger degree in this than in any previous edition of this popular *omnium gatherum* of "local habitation and names," from the very logical fact that each succeeding year, the extended experience and facilities of the Publisher have aided him in extending perspicuity of detail and accuracy of statement.

It is known to the permanent portion of the citizens, that the Publisher of this Directory, was the first to agitate the system of decimal numbering, and its introduction in this city was accomplished mainly through his energy and perseverance; that he, as the simple reward of his enterprise, did *not* receive the contract for numbering the houses of the city, was due, as is well known, to certain personal and other influences exerted in the late City Council of Washington. That the work was *not* more thoroughly and better done, is due to the fact that the contract was given to incompetent parties, for which reason it remains unfinished to this day. Many of the streets and avenues are badly numbered, and against all these short-comings and inaccuracies the compiler of this edition of the Directory has had to contend. The names on the lamps and corners of the streets is almost a dead letter from the fact that the glue signs have been washed off.

Of all the cities of the Union of equal size, Washington City, from its peculiar heterogeneous composition, is the most difficult upon which to base a clear, correct, and at the same time comprehensive Directory. The numerous departments, the almost innumerable heads of departments, and chiefs of Bureaus; the thousands of department employees, in every station, have all to be particularly noted and assigned to a residence. Then official changes are constantly taking place, necessitating notes and *errata* in the pages of the Directory, even as it is passing through the press.

Again, more than ten per cent of the population of Washington is transient, migrating, "here to day and gone to-morrow." If they obtain a residence here by reason of a few months sojourn, the indefatigable Directory man must get a knowledge of the fact, and note both their coming and going.

These apparently insufferable difficulties the Publisher of the Directory claims to have overcome in a great and gratifying degree, as will be apparent by a critical comparison of the present edition with those of past editions of the work.

Now, a word or two with our patrons, as to the benefits of our enterprise.

The present Publisher of the Washington City Directory, was *the first* to issue a second volume and guarantee its continuance from year to year. He commenced the publication of this Directory in 1857, and has continued it ever since, through vicissitudes and discouragements, that would have deterred most men from the prosecution of the enterprise.

During its progress through successive editions, the work has been enlarged by the addition of Georgetown, Alexandria and the suburbs, but the large additional expense incurred, has not been repaid the Publisher by the circulation and sale of the Directory within these new boundaries.

Some of the patrons of the Washington City Directory think it would subserve all the ends of utility to issue the Directory only *once* in *two years*. That would be too palpable an exhibition of slowness, for Washington, the Capital of the Nation, with a population of 125,000 souls, to put forth a Directory once in two years, while smaller cities, like Richmond and Norfolk—of 50,000, 40,000, and even 30,000 inhabitants—issue their annual directories.

The table of population, with statistics of age, color, etc., printed below, condensed to its apparent limits exhibits not one tenth of the arithmetical labor bestowed, requiring days of mental toil. A study of this table will reveal much that is interesting, and serve to show, in some measure, the comprehensive plan, and the boundless *minutia* contained within the pages of this Directory.

Our table of Octogenarians is the only complete exhibit of the kind ever attempted in this city, and this fact will be apparent by a glance at the interesting table.

Population of District of Columbia, giving number of males under 21 and 21 and upward, and of females under 18 and 18 and upward—White and colored,

REMARKS.

Washington contains a large class of people who do not patronize the Directory, yet the names of these very persons are the ones sought for in the Directory, and if not found the Publisher is condemned as slow, inaccurate and wanting in enterprise.

We assert that no city in the United States of the population of Washington, pays the Publisher so little for its Directory; and when the price of printing and printing material is considered—20 per cent. more than in any other city—the book should be considered cheap at four dollars per copy. But as he has never made the compilation of his work a mere “labor of love,” neither will he now commence its conduct on the principle of selfishness, and dollars and cents. For the public he has labored thus far successfully, and he claims that all he has accomplished has benefited the public more than himself.

In conclusion, the publisher of this Directory would state, emphatically and finally, that he has no connection in his business in this city with any other Boyd, of whatsoever name. He has been frequently, (to those unacquainted with him personally,) confounded with a certain Boyd, the publisher of an advertising sheet called “Boyd’s Office Directory,” and some business complications have arisen with our patrons by this mixture of identity. In future our patrons are particularly requested to remember this distinction in our individual and business relations.

DIRECTORY OF STREETS, ALLEYS, &c.

There are 1170 blocks or squares, bounded by 21 avenues, and over 100 streets in the city, irrespective of the suburbs. The Capitol is *nearly* the centre of the city, and from it the streets are laid out at right angles, and, according to our new system of numbering, are divided into four grand cardinal sections. All the streets lying northwest of the centre of the Capitol, have northwest attached to them; those southeast, southwest and northeast, are named in the same manner; heretofore we had *four streets of a name*, but by the revised system as above, we have but *one*. The most thickly settled portion of the city is the northwest. The new system of numbering is called the *decimal* system, and is on the principal of allowing 100 for every square, this aids the tourist, for if he wants to go to 911 Pa. av., he knows it must be between 9th and 10th streets. By this system you may ride to the door without annoyance of watching numbers. It is also beneficial to the city, in case of a fire or tearing down of a block of buildings, it does not disarrange the numbers ahead of that square. The streets named alphabetically run east and west from North and South Capitol streets; the streets named by numerals, run north and south from East Capitol street and the Mall. The avenues are laid out diagonally, as to the right angled streets and were intended as *short cuts* to the Capitol and public buildings. Many of the *squares* or blocks are so large that additional streets and alleys have been opened and named, many of these alleys were named by the Directory men while canvassing, generally from some local cause, a glance at the past and present list of streets and alleys will show how these latter are increasing. In this list will be found *duplicates*, which we will endeavor to avoid in future editions by suggesting the change of names.

Graduated Yoke Lifting.—The most strengthening and health-promoting of all exercises is practiced in no other establishment in this city. It is a process which brings into harmonious action, at one effort, upwards of four hundred muscles, arousing every dormant function of the body and imparting cheerfulness to the mind. It enables business men, whose time is precious, to get all the needed exercise of a day in a few moments. It is a safe and reliable means of

*Making the weak strong and the strong
Herculean, doubling the strength
in three months and treb-
ling it in a year.*

As strength is the correlative of health, the importance of such a result, in a hygienic point of view, is beyond question. It is far superior to hand-lifting as a curative agent—a fact ascertained by several years' trial of both methods in upwards of one thousand cases. It is an invaluable aid to medicine in the treatment of asthma, dyspepsia, obesity, pulmonary disease, (first stage,) chronic rheumatism, neuralgia, torpor of liver and bowels, and "general debility." HAND-LIFTING and every other essential exercise of a regular Gymnasium are also practiced by Dr. WINDSHIP's patients and pupils.

All kinds of

GYMNASTIC APPARATUS

constantly for sale, including the "WINDSHIP PATENT GRADUATING DUMB-BELL," (adjustable in a moment to any half-pound graduation between 9 pounds and 104,) and the "WINDSHIP PATENT UNIVERSAL STRENGTH TESTER AND DEVELOPER." The latter, from the extensive range of exercises involved in its use, and the little space it occupies—only 8 feet by 4—might be termed a

CONCENTRATED GYMNASIUM.

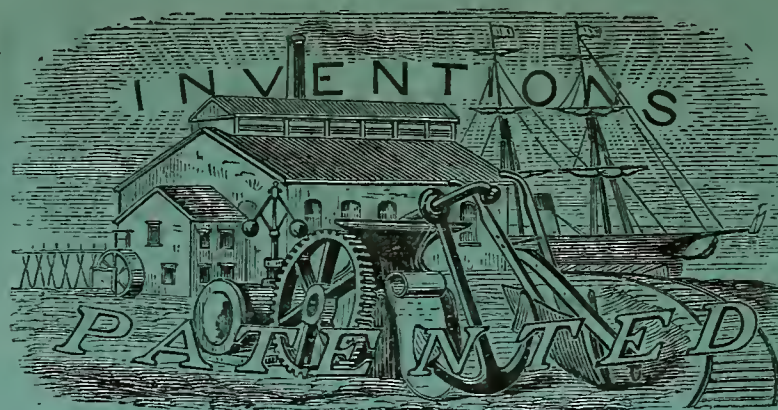

It is especially adapted for use in Medical Offices, Hospitals and Academies.

From a long list of references in our possession, attention is respectfully called to the following:

U. S. PATENT OFFICE,
WASHINGTON, D. C., April 2, 1864. }

W. C. DODGE, Esq.:

Dear Sir: In accepting your resignation of the position of Examiner in this Office, I am happy to express the appreciation entertained by the Commissioner of Patents and myself of the industry and ability which you have exhibited in the performance of your official duties.

I am respectfully and truly yours,

JOHN L. HAYES, Acting Commissioner.

Gentlemen: During my official connection with the Patent Office, I was highly gratified with the prompt, able and faithful manner with which you constantly pressed all interests in your charge before the Department.

Yours truly,

T. C. THEAKER, Ex-Commissioner of Patents.

WASHINGTON, June 2, 1869.

Gentlemen: It gives me much pleasure to state that during the time I held the office of Commissioner of Patents I was highly pleased with the fidelity and ability with which you attended to the interests of your clients.

ELISHA FOOTE, Ex-Commissioner of Patents.

DR. DANIEL BREED, SOLICITOR OF PATENTS

AND

CONSULTING CHEMIST, Office 818 F Street, opposite the Patent Office, WASHINGTON, D. C.

Late of the U. S. Patent Office; many years Solicitor; formerly of the German Laboratories
of Liebig and Löwig; Translator of the Chemistries of Löwig and Will.)

DR. DANIEL BREED having been in the United States Patent Office from 1852 to 1857, and since that time being engaged as Solicitor, continues to offer his services to inventors in procuring Patents in the United States and foreign countries. He will promptly prepare papers and drawings, and prosecute all business before the Patent Office, and will give especial attention to chemical cases, and also to interferences, reissues, appeals, infringements, extensions, and rejected applications.

Inventors are cordially invited to call on DR. BREED, or to consult him by letter, without charge.

TERMS.—For search of the Models in the United States Patent Office, and advice upon the patentability of an invention, \$5; for preparing papers and drawings for an application for a patent, \$20 to \$40.

DR. BREED refers to the officers of the United States Patent Office since 1852, and also to—

Hon. H. Hamlin and Mr. J. W. Jones, Maine.
 Senator Patterson and Hon. E. Burke, late Commissioner of Patents, New Hampshire.
 Senators Sumner and Wilson, Professors Agassiz and Horsford, and J. G. Whittier, Massachusetts.
 Professor Benj. Silliman, Connecticut.
 Professor J. S. Torrey, U. S. Mint; Hon. Ex-Governor Fenton, Ex-Secretary Seward, Judge R. Peckham, and
 Mr. George Gifford, New York.
 Mr. Ed. Hopper and William Evans, Jr., Philadelphia, Pa.
 Judge Bond and Hon. M. Blair, Maryland.
 Judge Chase, Hon. E. M. Stanton, General Badeau, and Mayor Bowen, District of Columbia.
 Judge Underwood, Virginia.
 Hon. D. R. Goodloe, and Messrs. H. H. and H. R. Helper, North Carolina.
 Judge Advocate Holt late Commissioner of Patents, Kentucky.
 General J. Eaton, Memphis, Tennessee.
 Hon. B. F. Wade, General Ashly, Mr. J. F. Seiberling, and Mr. William R. Fee, Ohio.
 Senator Hendricks and Hon. G. W. Julian, Indiana.
 Senator Trumbull and Dr. J. Foster, Illinois.
 Senator Howe, Senator C. C. Washburne, Judge Hood, and General C. S. Hamilton, Wisconsin.
 Senator Harlan, Senator Grimes, Mr. Suel Foster, Pres't Ag. Col., Gen. Hodgdon, and Lindley B. Harg, Iowa.
 Senator Pomeroy, Kansas.

PROF. COOK'S BALM OF LIFE;

THE GREATEST

Chemical and Medical Discovery
OF THE AGE.

The BALM OF LIFE contains Six Sanitary Curative Chemical Constituents. It contains No Lime, Potash, Acid, Nitrate of Silver, Sugar of Lead, Caustics, Mercury, Zinc, Arsenic or Lead, *in any form whatever.*

IT DOES CURE

Erysipelas, Ulcers, Old Sores, Salt Rheum, Ringworm, Barber's Itch, Sore Eyes, and all Skin Diseases.

IT IS AN UNFAILING REMEDY

For Catarrh, Nervous and Sick Headache, Neuralgia, Cholera Infantum, Cholera Morbus, Colic, Dysentery, Diarrhoea, Indigestion, Dyspepsia, Leucorrhoea, Prolapsus of the Uterus, Intestinal Prolapsus, and general female weaknesses. Cures internal as well as external Piles.

If oppressed with heat take a dessert spoonful of the BALM, rub the head, face and neck; rub the head with the hands. Use the BALM OF LIFE in this way, and a refreshing, delightful feeling will ensue.

This clear liquid is perfectly harmless, whether internally taken or externally applied; will not soil clothing, and is a delightful toilet article for general use. It is declared to be a household necessity.

A tablespoonful of the BALM taken every fifteen or twenty minutes will soon arrest virulent Cholera Morbus, or kindred diseases in adults. For children from 3 to 7 years old give a teaspoonful at intervals of fifteen or twenty minutes. In each case sponge the head and body with the BALM every half hour.

In cases of "Second Summer," or Cholera Infantum, give infants from 6 to 16 months old from one half to a teaspoonful every twenty or thirty minutes; sponge the head and body with the BALM every thirty or forty minutes. The child will soon rally and its recovery be no longer a matter of doubt. I recommend the attendance of a physician, whose experience with the BALM OF LIFE in such cases may be important.

The discoverer of this almost universal remedy knows of no case where it failed to act beneficially; but, on the contrary, it has cured every one properly treated, even diseases heretofore considered incurable. And its discoverer solemnly avers that there never has been, nor ever shall be made, a false and exaggerated publication, with his consent or allowance, as to the efficacy of, and wonderful cures made by, the BALM OF LIFE.

TRADE

MARK.

The BALM OF LIFE contains no preparation of opium; it acts like a narcotic in its sedative effects, only more effectual and immediate than the usual remedies, without producing dangerous effects from an unnecessary large dose.

It contains no astringent element, while its action in arresting and curing disorders of the stomach and bowels indicates this in a seeming constipation of two or three days duration, when the bowels will become regular and healthy in their action, even while taking it regularly as a prophylactic, or sanitary agent, after a cure is completed.

N. P. CHIPMAN.

A. A. HOSMER.

CHAS. D. GILMORE

CHIPMAN, HOSMER & CO,

ATTORNEYS AT LAW,

PRACTICE IN THE

SUPREME COURT, COURTS OF THE DISTRICT, AND COURT OF CLAIMS,

AND ATTEND TO ALL CLASSES OF

Cases Arising under Treaties and Internal Revenue Laws.

Attorneys for the Collection of Claims,

AND

SOLICITORS OF PATENTS,

NO. 632 F STREET, NEAR PATENT AND POST OFFICES,

WASHINGTON, D. C.

JANUARY 11, 1866.

WE formed, on the above date, a Copartnership with the view of establishing a permanent, reliable, and competent Agency, through which all classes of claims, legal or equitable, may be prosecuted here. The services of Mr. CHIPMAN in the War Department for more than two years, and Mr. HOSMER's association for a longer period as an assistant to the Judge Advocate General, and their former experience in the law, insure a thorough knowledge of practice in the Courts and Departments.

Mr. Gilmore's extensive practice before the war as Pension and Claim Agent, and his success during the past year in procuring the payment of the various claims before mentioned, are a guaranty of complete acquaintance with the mode of procedure necessary in all such cases.

Cases arising under the administration of the internal and other revenue laws, such as seizures or forfeitures for alleged irregularities, or for violations of the statutes, or other causes and where excessive taxes have been assessed through misunderstanding of the law, or misconstruction of it by revenue officers, and payments have been made or enforced which are in excess of legal requirements, and all similar matters which call for legal advice and services, will receive our immediate and careful attention.

By reason of our favorable location and facilities here, we make matters pertaining to PATENTS a branch of our business, and for the advantage of Inventors, and others interested, devote the services of one of the most experienced and successful solicitors to the procurement of Letters Patent.

Rejected or abandoned cases of value particularly solicited.

We Publish Pamphlets Giving Laws of Congress and Information Relative to

Bounties, Pensions, Various Claims, Officers' Accounts, Claims in Land Office, Navy Bag-money, Prisoners of War, Back Pay, Cavalry Soldiers, Prize Money, Ohio Militia, Naval Bounty and Officers' Clothing, Transfers from Army to Navy, Three months pay proper, Additional pay to Officers for Servants, Officers Commissioned not Mustered, Horses, Equipments, Mileage, Commutation, Delayed, Suspended, or Rejected Claims, Disbursing Officers, Property Purchased or Seized, Quartermaster and Commissary Stores, Contractor's Claims, Compensation to Loyal owners, Fees, Blanks, and Forms, Claims in the South, Claims, Commission, PATENTS, Revenue, Court of Claims.

These Pamphlets are Valuable to Agents and the Profession, and will be Sent to any one on Application, Without Charge.

JOHN J. HALSTED,
Counsellor at Law.

CROSBY, HALSTED & GOULD, PATENT ATTORNEYS,

515 Seventh Street, opp. Post Office Department,

WASHINGTON, D. C.

Boston Office, No. 34 School Street - - - Established in 1854.

SPECIAL AND LONG ESTABLISHED AGENCIES IN THE PRINCIPAL EUROPEAN CITIES.

All business relating to Patents promptly transacted.
 Special attention given to the revival and prosecution of rejected and postponed applica-
 tions; also to appeals to the Board of Examiners, to the Commissioner, and to the Judges of
 the Supreme Court of the District of Columbia. Also to the management of Interference
 cases, and to preparing and prosecuting, and to opposing applications for extension of
 Patents.

Written opinions prepared with reference to infringements, and exhaustive examinations
 and reports made with reference to the state of the art in connection with any new inven-
 tion or enterprise.

Messrs. Crosby and Gould have an experience acquired in eighteen years' practice as me-
 chanical and consulting engineers, and in their long and extensive practice before the Patent
 Office.

For nearly nine years Mr. Halsted, as assistant and principal examiner in the United
 States Patent Office, had charge of the important class known as "Fibrous and Textile," in-
 cluding cotton gins, hemp brakes, and other mechanism relating to the preparation of fibre,
 and to carding, spinning, twisting, braiding, knitting, weaving and felting; also sewing, em-
 broidery, fringe, chenille and lace machines; textile fabrics, wearing apparel, cordage, paper
 and paper-making machines, etc.

We also act as associate counsel and consulting engineers in litigated and other patent
 cases, and may be retained as such.

J. B. MCKAY, VETERINARY SURGEON,

A practical Veterinary Surgeon of 18 years' experience. To that noble animal, the Horse, he gives his entire attention as to treatment.

Thankful for the liberal patronage the people of the District have bestowed upon him during the last ten years, he solicits a continuance of the same.

Also an Infirmary for Sick and Lamé Horses and Mules. As there are many honest men cheated in buying Horses and Mules, it would be well to call at this establishment and have them examined carefully before purchasing. It is better to pay two dollars than to lose from three to five hundred dollars.

COLIC MEDICINE

Prepared and sent to all parts of the United States. No farmer, or any others owning Horses or Mules, ought to be without it, as it is often required in the night-time, or when you cannot procure a Veterinary Surgeon. Price of Medicine, done up in bottles, 75 cents to \$1.00. Liniment for Sprains. Also the best Sweating Blister for Splints, Spavins, &c. Letters addressed to the undersigned, at Washington, D. C., will be promptly attended to.

J. B. MCKAY,

CAN BE FOUND AT HIS OFFICE, DAY OR NIGHT, WHEN NOT PROFESSIONALLY ENGAGED.

OFFICE No. 807 SIXTH STREET, BET. H AND I,

CHARGES REASONABLE.

Special attention given to the prosecution of REJECTED or INTERFERING Applications, RE-ISSUING Defective Patents, EXTENSION of Patents, and Securing FOREIGN PATENTS.

Fees as Low as Reliable and Efficient Service will Permit.

Applications entrusted to our care are so conducted as not only to insure success in every case, where the invention possesses useful novelty, but to secure the strongest claims the case admit of, so that the Patent may afford the protection intended by the law, instead of subjecting the patentee to costly and fruitless litigation, or suggesting to others how they may imitate the invention with impunity. Office - - Fifteenth Street, opposite Treasury.

THE ADVANTAGES OFFERED BY THE
National Life Insurance Company,
OF THE UNITED STATES OF AMERICA, ARE

I.

IT IS A NATIONAL COMPANY, CHARTERED BY SPECIAL ACT OF CONGRESS.

II.

**IT AFFORDS THE SECURITY OF A PAID UP CAPITAL OF
ONE MILLION DOLLARS,**

With the privilege of increasing it to an unlimited amount.

III.

IT OFFERS LOW RATES OF PREMIUM.

The Policy-Holder in the National Life Insurance Company secures *by contract* a given amount of Insurance for a premium much lower than that of Mutual Companies.

IV.

It Furnishes Larger Insurance than other Companies for the Same Money.

For instance: A person aged 30, by paying an annual premium of \$165.50, can secure a policy in the National Life Insurance Company for \$10,000; while the same premium can secure only \$7,031.80 in a Company on the Mutual plan.

V.

IT IS DEFINITE AND CERTAIN.

There is no possibility of misrepresentation by agents, or misunderstanding by Policy-Holders. It makes a plain contract—so much insurance for so much money.

VI.

IT IS A HOME COMPANY IN EVERY LOCALITY.

The money paid for premiums will be invested in the section where received.

VII.

ITS POLICIES ARE NEGOTIABLE.

By the Charter of the Company certificates or obligations may be issued, agreeing to purchase its policies at their value, which, when accompanied by the policy duly assigned or transferred, are negotiable, and may be used as collateral security in making loans from the Company or from other parties.

VIII.

By the Provisions of the Charter its Policies are exempt from Attachment.

IX.

THERE ARE NO UNNECESSARY RESTRICTIONS IN THE POLICY.

The insured are not restricted from travelling in any part of the United States or British Provinces, or in Europe in time of peace.

X.

ALL POLICIES ARE NON-FORFEITING.

Every policy issued by the Company contains a guarantee of a paid-up policy for a proportionate amount. (See Explanation of Tables.)

XI.

It makes an Annual Addition to the Policies of One Hundred per centum of the Premium paid.

Policies issued by the Return Premium Plan increase at the beginning of every year by just the amount of premium paid. (See Explanation of Tables.)

XII.

It pays to the Insured During Life an Annual Income of One-Tenth the amount named in the Policy.

A party insuring upon the Income-producing Plan will draw an Annual Income of one tenth the amount named in the Policy after ten, twenty, twenty-five or thirty years, according to the kind of policy taken.

The full amount of the Policy will be paid at death, whenever that event occurs. (See Explanation of Tables.)

XIII.

NO CHARGE IS MADE FOR POLICY FEE OR MEDICAL EXAMINATION.

XIV.

NO EXTRA RATE IS CHARGED FOR RISKS UPON THE LIVES OF FEMALES.

For Circulars, Policies and Agencies apply to

JAY COOKE & CO., Gen'l South'n Ag'ts,
15th Street, opposite Treasury Department.

Information at all times cheerfully given. Agents and Solicitors wanted, who can make profitable engagements.

ORANGE,

Alexandria and Manassas

RAILROAD.

On and after FRIDAY, NOVEMBER 18, 1870, one daily Passenger Train will run between

WASHINGTON AND LYNCHBURG,

connecting at Gordonsville with the Chesapeake and Ohio Railroad to Richmond, Staunton and the Virginia Springs; at Lynchburg for the West and Southwest; and at Washington to the North and Northwest.

Leave Washington daily at 6:55 a. m., and Alexandria at 8:00 a. m., arriving at Lynchburg at 5:05 p. m.

Leave Lynchburg at 8:25 a. m., arrive at Alexandria at 5:25 p. m., and at Washington at 6:15 p. m.

For MANASSAS LINE, leave Washington daily (excepting Sunday) at 9:55 a. m.; leave Alexandria at 11 a. m.; pass Strasburg at 3:42 p. m.; and arrive at Harrisonburg at 6:45 p. m.

Eastward, leave Harrisonburg at 6:30 a. m.; pass Strasburg at 9:28 a. m., arrive at Alexandria at 1:45 p. m., Washington at 2:35 p. m., connecting with the 2:50 p. m. train from Washington to Baltimore.

GOOD CONNECTIONS by comfortable coaches are made to Fairfax Court House from Fairfax Station; to Middleburg from Plains; to Upperville from Piedmont; and to Staunton from Harrisonburg.

Both the Eastward and Westward bound trains make close connection at Strasburg with the Winchester and Strasburg Railroad to Winchester, Harper's Ferry, &c.

Elegant sleeping cars are run daily between New York and Lynchburg, without change.

Also, cars through between Baltimore and Lynchburg, avoiding the inconvenience of transfer in Washington.

Through tickets and baggage checked to all prominent points.

EXPOSITION UNIVERSELLE.

PARIS 1867.

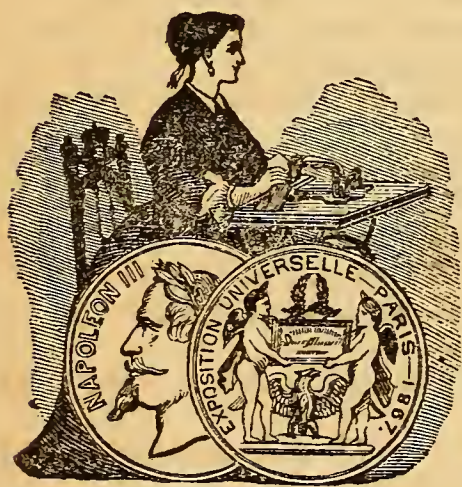

THE HIGHEST PREMIUM,

THE ONLY GOLD MEDAL!

FOR

WHEELER & WILSON'S

Sewing Machine.

The number of entries was as follows :—United States, 19; France, 25; England, 11; Belgium, 4; Switzerland, 2; German States, 6; Austria, 3; Denmark, 3; Italy, 4; Canada, 5; Total 82.

This award, beyond all question, stamps the WHEELER & WILSON as the leading Sewing Machine of the world. While it will do the heaviest work of the family in a style equal to any of the coarse, heavy machines in the market, it is especially adapted to the finer descriptions of family work. It is used almost exclusively in the great shirt factories at the North as the only Machine adapted to that business.

UNION HOTEL,

Georgetown, D. C.

V. SHINN, Proprietor.

This Hotel has been newly refitted and furnished. It contains all the modern improvements—Hot and Cold Baths, Bells and Gas. It is conveniently located, being situated on the line of the Washington and Georgetown City Passenger Railroad—the cars of which, from the Railroad and Steamer Depots, pass the door every two or three minutes. The guests of this House can reach any of the public buildings of the National Capital or any place of amusement, &c., by a pleasant ride of a few minutes.

EXECUTIVE.

EXECUTIVE MANSION.

The President's Mansion, or White House, as it is familiarly called, is on Pennsylvania avenue, between 15th and 17th streets, and fronting Lafayette Square. It was erected in 1792; rebuilt after the war of 1812. It is built of freestone, and painted white. The lawns around, containing some twenty acres, drop gradually toward the Potomac river. This elegant but not imposing edifice is two stories high, 170 feet long, and 96 feet deep. On the north front, upon Pennsylvania avenue, the building has a portico with four Ionic columns, under which carriages pass. A sectional colonade of six Doric pillars adorns the Potomac front. In the centre of the lawn, across the avenue, on the north, is Clark Mills' bronze equestrian statute of Gen. Jackson, erected in January, 1853. The artist has the honor

of being the first to succeed in erecting a statue representing a steed poised upon its hind feet, with no other support. It is cast of cannon taken by Jackson, and cost \$50,000. Near the President's mansion, on the west side, are the very plain buildings of the Navy and War Departments, and on the other side the Treasury Department.

Howard University, Organized under a special act of Congress—It is intended as a National Institution for higher education in the training of teachers and the usual College course, as, also, in the departments of theology, medicine, law, and agriculture, and to be truly a University of the highest grade, specially for colored men, though not exclusively, there being no designation of race in the act of Incorporation.

LOCATION—North of the City Boundary, on 7th street. The location is one of the most desirable and healthy on the outskirts of the City, and of easy access by the street cars.

There are eight buildings in use, in every way suitable for their purposes. The principal University edifice is four stories in height, and contains rooms for lectures and recitations, a chapel, library, philosophical rooms, museum, and offices. Miner Hall for young ladies is three stories in height above the basement, and will accommodate one hundred students.

The basement is completely arranged and furnished for all purposes of a Boarding Hall to accommodate two hundred boarders.

Clark Hall for young men will accommodate two hundred students. In its basement is a large room adapted to military drills and gymnastic exercises.

The buildings for the Medical Department and Hospital with their grounds adjoin the University park. The main building is five stories in height, and is equal if not superior in its style of architecture and facilities for the accommodation of the medical students, to any of the first class medical colleges. The lecture rooms are conveniently arranged, and will accommodate two hundred and forty students. The general hospital connected with this department will accommodate over three hundred patients.

ASYLUMS, INFIRMARIES, &C.

Government Hospital for the Insane.

The site of this institution, called *St. Elizabeth*, is on a commanding eminence on the southeast side of the Anacostia river. It is a national institution and receives all the insane of the Army and Navy and the Revenue Cutter Service, and the indigent insane of the District of Columbia, who are admitted upon the orders of the Secretaries of War, of the Navy, of the Treasury, and of the Interior, respectively. If the admission is desired of an insane person belonging to either of the first three classes just named, application should be made directly to the Secretary at the head of the service to which he belongs.

The steps necessary to procure the admission of an indigent insane person of the District, may be learned by application either to the Secretary of the Interior, to one of the Visitors of the Hospital, or to the Superintendent at the Institution.

Independent or pay patients are received upon a certificate of insanity signed by two practicing physicians of the District, a written request by the nearest relative or guardian of the person so certified to be insane that he may be admitted into the hospital, and the prepayment of thirteen weeks board.

VISITING DAYS—Visitors to the Hospital are received only on Wednesdays between the hours of 2 and 6 p. m.

There are Institutions in various sections of the United States connected with this. These Asylums have each been provided not only with all the ordinary comforts of a home, but also with chapels for religious services, concerts, lectures, &c. Hospitals, with the best surgeons and nurses, library, reading-room, school, amusement-hall, telegraph and post office, workshops, &c., and as a result the men are not only contented and happy, but making wonderful advancement in morals and religion.

Industrial Home School.

This Institution was organized December 2, 1867. The object of the Association is to receive and care for homeless and destitute children who are too old to be received into Orphan Asylums, to supply their immediate wants, furnish them clothing, instruct them in industrial pursuits, and bring them under christian influences, so that they may learn self-respect, self-reliance, and habits of industry, instead of depending upon street begging or petty pilfering for a livelihood. Up to January 1, 1870, 289 children had attended the schools, and 119 had been employed in the shops. Number of hours worked in shops was 18,700; childrens earning estimated at \$463 40. The number of meals furnished was 18,800. There are two schools—one for girls on 7th street in Armory Square, near the canal, where paper boxes, &c. are made; and one for boys, No. 47 Jefferson street, Georgetown, where carpenter work, repairing, &c. is done. Grand Army of the Republic, U. S.

The Grand Army of the Republic is an organization of true and tried honorably discharged soldiers, to aid with its charity the maimed and helpless soldier and the dependent families of the fallen; to secure employment for those returned soldiers who have vainly sought for it themselves, and whose very tattered uniforms seem an evidence of demerit in the eyes of many who never dared to clothe themselves with it and its dangerous responsibilities. Whatever secrecy there is about this organization is only such as surrounds the most benign and powerful civil orders of the day as a necessity for their protection and strength, and to better secure their charitable objects. Headquarters of the National Encampment Grand Army of the Republic, are situated at May Building, cor 7th and E streets, Washington, D. C. The organization embraces thirty-eight departments, including every State and Territory, with a membership of four hundred thousand.

COLORED SCHOOLS OF WASHINGTON AND GEORGETOWN.

A "Board of Trustees of Colored Schools for Washington and Georgetown" was constituted by Congress in 1862, their successors being appointed by the Secretary of the Interior. The municipal authorities of the two cities are required by law to pay over to these Trustees "such a proportionate part of all moneys received or expended for school or educational purposes in said cities, as the colored children between the ages of six and seventeen years, in their respective cities bear to the whole number of children, white and colored, between the same ages."

The total number of pupils belonging to the schools is about 3,500.

The management of the schools entrusted to a superintendent.

Ladies' Academy of the Visitation.

Founded in 1799, located on the heights, commanding a view of the Potomac and a distant perspective of Washington city. The situation is healthy and picturesque.

The ladies who have charge of the Institution profess the Catholic faith; yet, while the exercises of religious worship are Catholic, members of every religious denomination are received, of whom it is required, for the maintenance of good order, that they assist with propriety at the public duties of religion with their companions.
